REQUEST FOR CORRECTED FILING RECEIPT

Dear Sir:

Applicant(s) hereby petition(s) the Commissioner For Patents to correct the
Official Filing Receipt for the above-identified patent application as follows:

- ☐ 1. Correct the Filing Date
- ☐ 2. Correct Inventor Name
- ☐ 3. Correct Title
- ☐ 4. Correct information referencing related case
- ☐ 5. Correct Attorney Docket Number
- ☒ 6. Other: **PLEASE CORRECT THE ORDER OF INVENTORS LISTED.**

This Request is submitted for the following reasons:

Please correct the order of the inventors listed. Shmuel Shaffer should be the FIRST inventor; Charles J. Bedard should be listed as the SECOND inventor as follows:

Shmuel Shaffer, Palo Alto, CA;
Charles J. Bedard, Saratoga, CA

Attached is a copy of the Filing Receipt having the above errors and the changes noted thereon in red, as well as copies of the Transmittal Letter, first page of the Patent Application, and Declaration. Therefore, it is respectfully requested that a corrected Filing Receipt be issued.

Because this was not an error on the part of Applicant(s), Applicant(s) believe no fee is required. If this action does not lead to issuance of a corrected Official Filing Receipt as requested, please contact the undersigned at 512-439-5097.

I hereby certify that this correspondence is being deposited with the United States Postal Service as First Class Mail in an envelope addressed to: Office of Initial Patent Examination's Filing Receipt Corrections Customer Service Center,, Washington, D. C. 20231, on <u>4-1-03</u>	
 Attorney for Applicant(s)	<u>4-1-03</u> Date of Signature

Respectfully submitted,

Justin M. Dillon

Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Filing Receipt Corrections, facsimile number 703-746-9195. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

ACHIEVED: _____
DOCKETED BY: _____
FILED: _____
VOLUME: _____

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

**EXTENDING CAMP-ON CAPABILITIES TO INVITEES TO AN ONGOING CONFERENCE
CALL**

Shmuel Shaffer
Charles J. Bedard

BACKGROUND OF THE INVENTION

The present invention is related to a method and system to be utilized in data communications involving at least one data communications network.

10 **Description of the Related Art**

Data communications is the transfer of data from one or more sources to one or more sinks that is accomplished (a) via one or more data links between the one or more sources and the one or more sinks (b) according to a protocol. A data link is the means of connecting communications facilities or equipment at one location to communications facilities or equipment at another location for the purpose of transmitting and receiving data. A protocol, in communications, computer, data processing, and control systems, is a set of formal conventions that govern the format and control the interactions between at least two communicating functional elements in order to achieve efficient and understandable communications. Examples of protocols are Internet Protocol (IP), Asynchronous Transfer Mode (ATM) protocol, H.323 (an ITU-T standard), Media Gateway Control Protocol (MGCP), and Simple Network Management Protocol (SNMP).

A data communications network is the interconnection of two or more network station clients (i.e., data sources and/or sinks) over one or more data links. A data communications network connects and allows communication between multiple network station clients over one or more data links.

A conference call is a network-provided service feature that allows a call to be established among three or more network station clients in such a manner that each of the stations is able to communicate with all other stations. Existing data communication
